

Plastic Framed Disposable Panel Filters

Local Manufacturing

Filterfit prides itself on our local manufacturing. We produce all bag & panel filters and are capable of manufacturing filters at standard & nonstandard sizes at a timely fashion (1-3 days) and in the case of an URGENT order, filters can be made up on a same day turnaround basis. The new Filterfit V-forms are manufactured onsite at our Factory in Mordialloc Victoria, on a daily basis.

Construction:

Filterfit's Disposable Filters are manufactured from high impact, thermoformed food grade plastic in either 48 mm or 98mm plastic channel, glued into the frame with hot melt glue on all four sides, corners also glued into place. Washable pleat packs are provided with galvanised wire mesh on both sides to provide more media support making the filter longer lasting while under pressure.

The media is pleated to provide a greater surface area, thus providing superior dust-holding capacity to that of a flat panel filter. With a high impact plastic frame our new filters are virtually indestructible. Our onsite testing has proven that our filters easily withstand impact in the event they are accidentally dropped from ladders or roofs and remain fully useable.

Dimensions:

Filters are available with frame depth of either 48 & 98 mm plastic frames. Standard sized filters are kept in store and non standards are available on request.

Plastic Framed Disposable Panel Filters

Part No.	Nominal size (mm)	Holding Frame size (mm)	Capacity l/sec @		Pressure Drop Pa.		Final Res. Pa.
		W X H X D	1.5 m/sec	2.5 m/sec	1.5 m/sec	2.5 m/sec
